MAR TECH

During **MARTECH Workshop** you can share information and perspectives on research in fields of MARine TECHnology. MarTech is an internationally venue for dissemination of marine technology research since 2008.
Location: University of the Balearic Islands, Palma de Mallorca, **(Spain) during June 6-7th, 2024**.

martech-workshop.org

Category 1: Applications of Marine Technology
- **Technology for Aquaculture and Marine Biology**
- **Operational Oceanography**
- **Underwater Archeology**
- **Water Industrial Applications**
- **Water Treatment Plants**
- **Observatories, remote sensing**
- **Seafloor and Water Column characterization**
- **Coastal, regional, and offshore research vessels and platforms**
- **Other Applications**

Category 2: Renewable Marine Energy
- **Wind Power**
- **Solar Energy**
- **Smart Grids**
- **Wave Power**
- **H2**
- **Floating Wind Turbines**
- **Wind Farms**
- **Intelligent Control Techniques**
- **Simulations, Modelling and Optimization**

Category 3: Robotics, AI, Sensors and Communications
- **Instrumentation, Metrology, Signal processing**
- **Computer Architectures for AI**
- **Marine Robotics: ROVs, AUVs, ASVs, Gliders**
- **Underwater Communications**
- **Artificial Intelligence for Underwater Technology**
- **Seafloor observatories and sensor networks**
- **Underwater imaging and communication**
- **Marine Geophysics technology and solutions**
- **Marine Data Interoperability and data flow**

Abstracts
Submission
Deadline
**10 of
December
2023**

Organized by:
