

Plant & Hire
Aid Alliance

Dear Plant and Hire Aid Alliance Member

As we reflect on a second year of invasion, I extend my heartfelt gratitude for your unwavering support through numerous challenges. Despite the hurdles, the aid we delivered has been nothing short of spectacular.

One personal highlight for me was the provision of 750kW generators to Sumy, now crucially powering a water treatment plant serving 250,000 people. Overcoming substantial challenges to retrieve them from the building in Oxford Circus showcased our collective determination.

Our Christmas gift appeal this year brought immense satisfaction. Gifts reached children along the front line and in orphanages, sparking joy captured in heartwarming photographs and videos. In the midst of a challenging time, we were able to make a positive impact, even if just for a fleeting moment.

As we enter the third year of the invasion, the Ukrainian people need our help more than ever. With waning interest in Europe and North America, donations and supplies are slowing down, exacerbating the hardships faced by millions of displaced individuals. Requests for essentials such as food, blankets, warm clothes, rechargeable battery packs, and generators persist.

Should any of you be willing to contribute, the Alliance remains committed to shipping items for as long as funds are available. Your generosity makes a tangible difference in the lives of those in need.

In the meantime, I want to express my deep appreciation for your ongoing support. As you peruse the slides, take a moment to recognize the achievements and positive impact that each of you has made. It is through your dedication and contributions that we continue to make a meaningful difference.

Thank you once again.

Best Regards

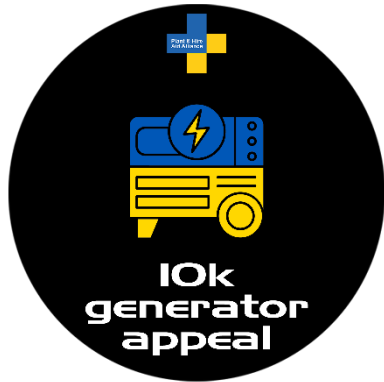

Plant & Hire Aid Alliance Founding Member

Power to Ukraine – Generator Appeal February 2023

- Donations from plant and hire industry supporters fund the purchase of 135 generators for families, schools, shelters and community centres close to the front line

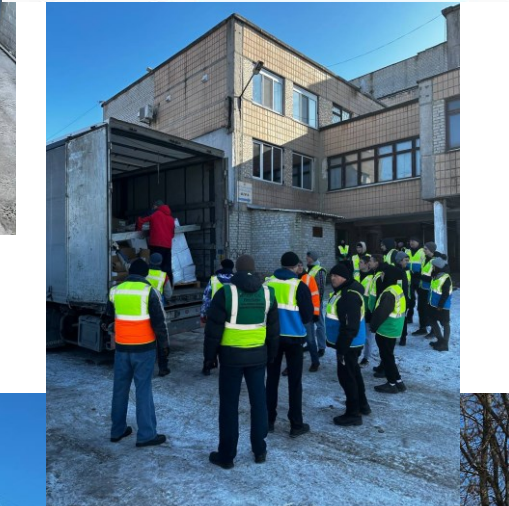

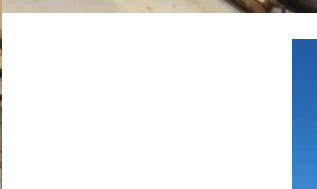

Bath Abbey Concert February 2023

- Jeremy Fish represents the Plant and Hire Aid Alliance at a Bath concert to raise funds to buy a generator for the children's hospital at Oleksandriya, Southwest Ukraine. The concert is attended by 600 people.
- The Plant and Aid Alliance purchases a generator that is partly funded by JCB. PHA members fund the transport to Oleksandriya

Ambulance, Generator Campaign, Other Donations & PlantWorx May, June 2023

- Funds are raised from Plant and Hire Aid alliance members, supporters and members of the public to buy an ambulance and an additional 100kVA generator for the main hospital in central Oleksandriya
- A 40ft artic of donations is despatched to Oleksandriya

The Plant and Hire Aid Alliance is recognised at PlantWorx in June 2023 for its outstanding contribution to Ukraine humanitarian aid

2 x 750kW generators for the Munipl Water Treatment Plant of Sumy, Northeast Ukraine

- The treatment plant provides drinking water for over 250,000 people
- The generators were donated by McLaren as part of a building refurbishment in Oxford Circus, Central London
- This was a complex project that required the generators to be lifted off the building and transported on 4 HGVs to a nearby compound where they were transported to Ukraine
- Donations from Plant and Hire Aid Alliance members funded the transport.

Donations from The Scrubbery **July 2023**

Over 255 pallets of hospital scrubs were delivered, requiring 8 x 40 ft artic trucks which were funded by Plant and Hire Aid Alliance members.

Plant & Hire Aid Alliance
Aid Convoy: 15th & 16th Oct 2023

The continuing war in Ukraine is likely to leave vast swathes of the population struggling. The ruling Russian elite will be hoping that the Western media takes interest in the war so that they can continue their invasions as part of fulfilling their aims. Already their hopes are becoming reality.

The invasion is reported less in the media now than at any other time despite millions of people losing their homes and livelihoods and thousands of others facing their lives.

THE TRIP

On 10th October 2023 we're planning our third convoy of vehicles that will take aid to Ukraine. We're looking for plant and hire industry companies to join us on a convoy that will be leaving for Kobice on the 15th, arriving Monday evening on the 16th.

Working with Rotary International, our plan is to drive to Kosice, in Eastern Slovakia, where we will deliver supplies to a warehouse that will be driven into Ukraine by local volunteers. This is already a tried and tested route that has made an impact to the lives of thousands of Ukrainians.

The aid effort will require participants to procure items from the list provided by Rotary International. These might be donated by local communities, schools, gyms, through fund raising or from donations from customers and suppliers. Participating companies will also need to provide a vehicle and drivers as part of the convoy.

PROCURABLE ITEMS

We're looking for donations including the following:

- food, camping food, baby food;
- aids for disabled and elderly;
- hygiene items (except sanitisers);
- powerful inverter generators (5 kw and more);
- heaters;
- candles, torches;
- sleeping bags and mats;
- thermal clothing, warm socks;
- fire, and fire;
- powerbanks;
- bedding;
- disposable dishes.

GET INVOLVED

If any customers, or others would like to join us then contact us on ukraine@ardenhire.com

ROTARY
SUPPORTING
UKRAINE

Many of our supplies were delivered to the 128th battalion who were at the front line in Zaporizhzhia. The battalion is Ukraine's second oldest ground forces regiment. Today it includes doctors, managers, chefs, volunteers and professional people who are at the edge of Europe fighting for their freedom. This flag was signed by members of the battalion and send to Jeremy Fish as a 'thank you' to the Plant and Hire Aid Alliance for their assistance. A few days later we were informed that all the signatories to this flag had been killed when an informant had betrayed their position at an awards ceremony. 28 soldiers were killed and 35 wounded when a Iskander missile was fired at the battalion.

Wrapathon December 2023

- 100 volunteers from plant and hire companies and members of the public
- Wrapped 7,200 gifts at Framlingham High School, Suffolk

Arrival of Gifts December 2023

- Rotary distributed the gifts to orphanages in Transcarpathia and border towns in the conflict zone including Kharkiv, Zaporizhzhia, Kupiansk, Dnipro, Kramatorsk, Chuguyiv, Kherson, Borova and Odesa

Donation of Generators **December 2023**

- 23 generators – 13 to Odesa, 7 to Kharkiv and 3 to Gammalsvensky

Generators from our English and Slovak partners are starting to arrive in different institutions in the region.

Today, the new Daewoo generator GDA8500E-3 was handed over by Lyceum N4 of the Black Sea City Council for use in a protective hideout where schoolchildren are hiding and waiting for the end of the air alarm.

Representatives of the BF "Southern Capital", including my oldest daughter Victoria, who helps a lot in my work with her husband Dmytro, told the teachers of the lyceum how this charity cargo got into Chernomorsk.

The director of the lyceum thanked everyone involved for this gift under the Christmas tree!))

I join these wishes and thank Rotarians of Great Britain, Slovakia and Ukraine, their friends [Lilia Leonidova](#) , [Jeremy Fish](#) and [Andriy Baganich](#) I am proud of friendship and cooperation with you!

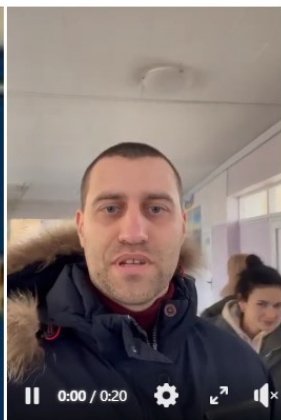

We continue to work for the good of the community! Without bureaucracy and PR - only specific cases!!!
