

# A30 Chiverton to Carland Cross scheme

## A390 closure over the weekend of 16 - 19 February 2024

In February the A30 Chiverton to Carland Cross upgrade project will be carrying out extensive construction work on the A390 between Chiverton Interchange and Penstraze that involves a road closure.

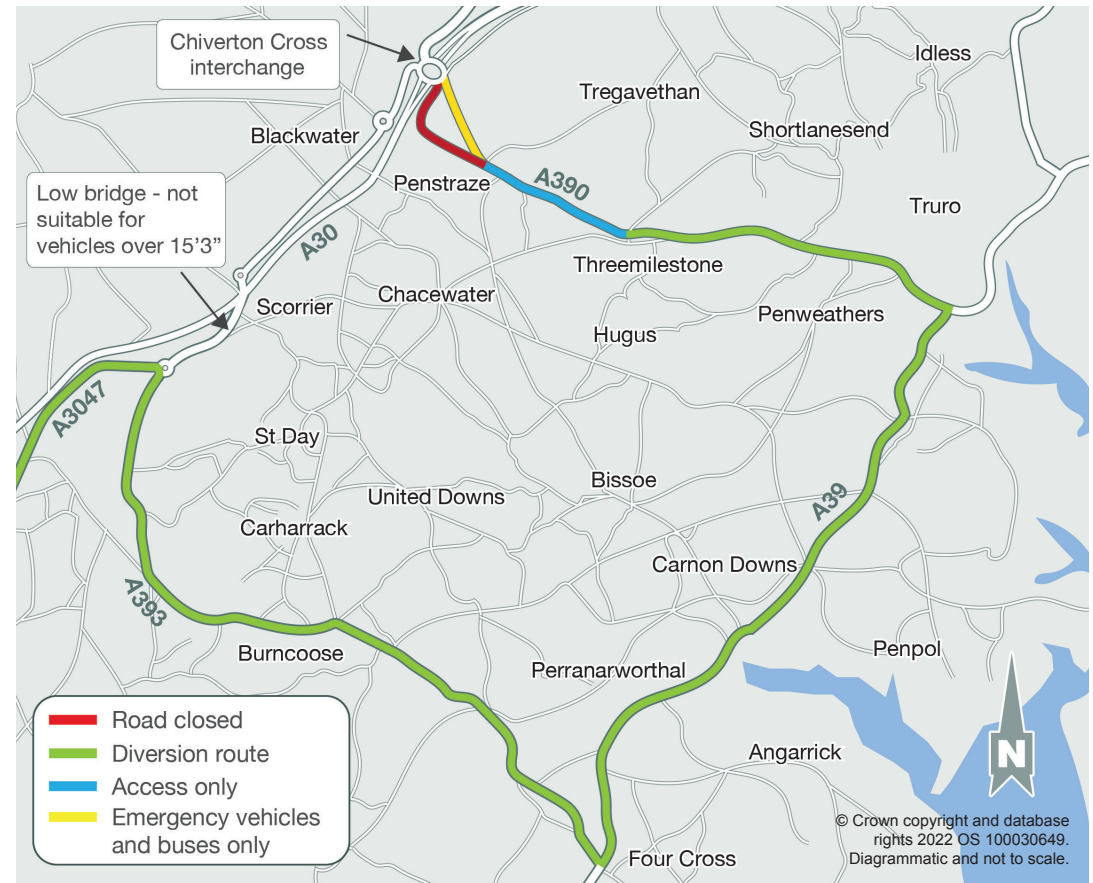

As part of the work to resurface and construct the road to its final surface level, we will be closing a section of the A390 from 7pm on Friday 16 February until 6am on Monday 19 February.

Diversion routes will be in place and have been agreed with Cornwall Council. The A30 between Carland Cross and Scorrier will remain open during the weekend. We expect there to be delays around the closure and diversion routes over the weekend so please plan ahead, allow extra time for essential journeys and avoid the area if possible.

Access will be maintained via Penstraze Lane for emergency services' vehicles and key bus routes only. Access will be provided for properties and businesses within the closure.

### Keep in touch

Please visit our webpage, socials or join our mailing list to keep up to date with the scheme and planned road closures.
