DESIGN & COPYRIGHT LAW

siblings or rivals ?

Where does design protection ends and where does copyright protection starts ? Is it halfway, partway or far away. Do they complement or exclude each other ?

This Round-Table session aims to look at practical/technical aspects (strategy) and to debate on the legal consequences (scope of protection).

Organised by the UNION-IP Designs Commission

DESIGN & COPYRIGHT LAW

siblings or rivals ?

What do the Brompton Bicycle, the Ferrari 250 GTO, the Rubik's Cube and Birkenstock sandals have in common? All are allegedly protected under European copyright law. But does this hold true? And what is the relation with design rights, particularly in view of the recent CJEU's "Ferrari" decision? This Round Table will revolve around the exciting world of designs and how to protect them in fast moving times, including the looming metaverse. Leading academics and practitioners will speak out during this new Round Table session – use this unique opportunity to meet them and to share your views!

➲ What is UNION-IP ?

UNION-IP is an association of exclusively European practitioners in the field of Intellectual Property, that is, of individuals whose principal professional occupation is concerned with Patents, Trademarks, Designs or Copyright and related fields, and who carry on their profession independently or as employees.

UNION-IP is a private, free, international association that is not dependent on any national or international authority: it approves its own members, in accordance with its statutes, in total independence, and likewise decides on its own activities and its own budget.

UNION-IP aims to work on developments in Intellectual Property in Europe, especially by making submissions during the preparation of proposed laws and treaties, and to devote itself to the improvement of professional and personal understanding between European practitioners in the Intellectual Property field in different countries and different branches of the profession.
